Short synopsis: Filmed throughout Northern New England, and featuring all regional talent, the independent movie Bridge Crusader is about one man's quest through multiple lifetimes to understand and find peace with his immense sense of duty. Year after year, a talented, lone-wolf artist sojourns to the historic Covered Bridges of Northern New England on his 1970s chopper to rendezvous with a mysterious woman who appears to him without warning at

unlikely moments, in the most unexpected of places, and seemingly without reason. In a desperate race against time, he strives to put the pieces of her story together to understand what he must do.
